

## CASE STUDY:

### Copeton Dam Spillway Gate Controllers

#### Location

Copeton, NSW

#### Description

This project involved an upgrade to the electrical aspect of the Copeton Dam Spillway. Our scope included manufacturing panels for the radial gate control. There was a total of 9 gate controller boards built, 1 for each gate that is used at the Dam Spillway.

#### Features

3 points to the board to allow for accessibility onsite,  
SSI Panel Meter,  
Custom enclosure design manufactured by Metroid

#### Scope

Design, construction
